

New double guard **UNIVERSALE**

Forged Steel

Made in Italy
Patented product

- **Easier to mount and dismount**

the UNIVERSALE guard can be changed without removing the complete mobile sectional knife bar from header and not need the protective clips thanks to its innovative incorporated upper bar

- **Precise and stronger bar guidance**

forged quality steel with uniform measures that reduce the resistance during the movement of the knife bar for an optimal cut

- **100% interchangeable**

interchangeable on main harvester headers
John Deere, Agco, Laverda, Fendt, Rostselmash
Deutz Fahr, all Sch applications and many others

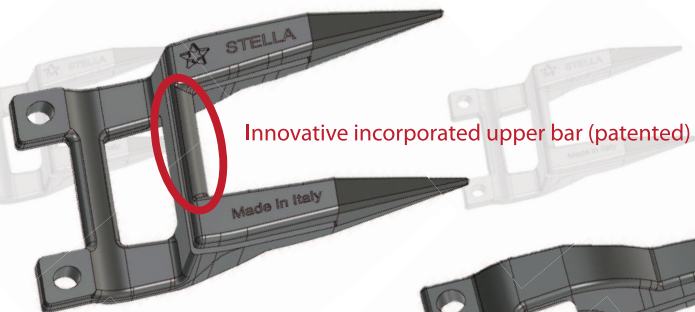

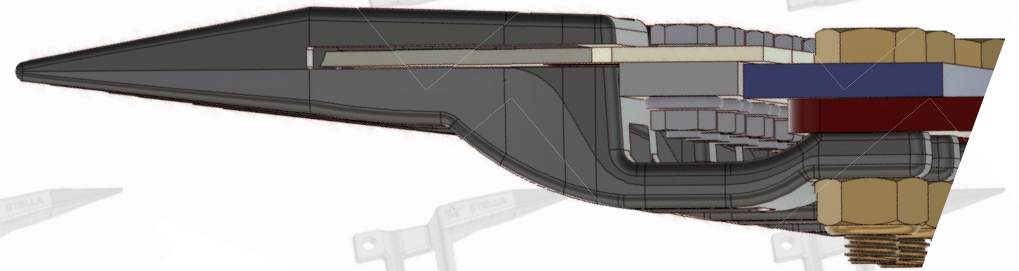

Suitable on complete new cutting unit Stella Testa rossa

- **Clean header**

thanks to its innovative design the guards keep cleaner the cutting bar and avoid the accumulation of vegetable waste

- **Heat treated**

made for higher performance and superior durability

Innovative incorporated upper bar (patented)
